

## Transcar establishes own presence in China

Commencing December 2002, Transcar has positioned its own personnel in Shanghai, China.

Whilst the company has already been involved in a number of projects to, and within, China it had been decided that an own presence would provide that extra personal service on the ground for clients.

A fully functioning operation is now offered. Transcar's man on the ground, Roy Nobbs, provides a wealth of experience in the project field with an especial emphasis on Asia, having spent much of his recent years in the Philippines and Singapore.

You can get in touch with Roy by emailing him at [\*\*Roy.Nobbs@transcar.co.uk\*\*](mailto:Roy.Nobbs@transcar.co.uk)
